Dear Parents/Guardians/Aspirants,

edu-CAD, is a different type of coaching institute for engineering and medical entrance aspirants. We provide offline coaching to students from STD-VIII onwards, who are interested for medical and engineering entrance exams and online test series for practice. Our aims and objectives are totally different from other coaching centres. We have come up with new preparation style where one can get entrance easily. We prepare students for entrance “**mentally**” first. Books, materials, teachers are the secondary ones.

edu-CAD provides success guaranteed medical, NEET. We keep students away from the 3 words i.e “**concept**”, “**doubt**”, “**funda**” which have been the most highlighted words in other coaching centres. This creates a fear in the mind of students. We emphasis students to read NCERT books first by themselves. When someone reads a book thoroughly, he will never get a doubt or will run after teachers to clarify his concept and funda on that particular chapter. He can go for other reference books to clarify his doubt if any and can find a solution to his problem.

Students play an important role for getting through entrance. Where others focus on **what to do**, we focus on **what not to do** so that one will get through entrance at ease. One should have a strong desire to achieve his goal. He should develop a positive attitude which is the key to overcome all the obstacles and get success. Before preparing for entrance exams, one should know “what is entrance?”.

In edu-CAD, we aware both the students and their parents about what is entrance, its pattern, marking scheme, qualifying marks, last year’s cut-off marks etc. These are most important to know at first. Then comes books, materials, coaching centres etc.

We at edu-CAD, aims to take 50 students for NEET preparation and basically we prefer students who have scored 350 marks and above and willing to prepare for one year to get a seat in any govt. medical college.

IT’S NOT AN ADVERTISEMENT, IT’S AN AWARENESS.

We invite you to come to our institute once not to take admission but to know the difference between us and other coaching institutes.

An overview of edu-CAD's online system:

edu-CAD provides online practice series for different entrance exams.

Entrance exams like AIIMS, JEE MAIN, JEE ADVANCE, IBPS, RAILWAY, CAT, XAT etc are online except NEET exam. **May be NEET next time!!!!!!!!!!!!** And now time has come to practise online practice series for medical entrance exam(NEET). To get through entrance, it's high time to practice more and more MCQs as in entrance exam, objective questions are being asked. Only reading can't help a student to get a good rank in entrance, it is vigorous practice of MCQs which is the main factor responsible for getting a good rank in entrance. Daily practice paper will enhance your ability to do MCQS with great speed and high accuracy.

edu-CAD's each practice set less than the price of a chocolate!!!!!!!!

We provide online practice series for medical entrance aspirants at a very nominal price i.e **365 practice set @ Rs360/-** only i.e 1 practice set less than Re 1. These practice series are designed according to the NEET pattern. The more you practice, the more marks you score in your entrance.

Why to give edu-CAD's practice series???

1. We are giving All India and All Odisha ranking after each practice set which will help a student to assess his/her own rank at the end of the final examination.
2. We are giving guarantee that most of the question of NEET will come from our practice series which consists of NCERT course and last 25 years AIPMT question set.
3. It is not a test, it's a practice series which will help students to enhance their MCQ ability i.e they will do quickly and minimize their wrong.
4. You can view your result immediately after each practice set showing marks obtained, no. of correct response, no. of incorrect response along with answers to all questions.

UNSOLVED QUESTION!!!!!!!!!!!!!!!!!!!!!!!!!!!!

No need to worry. You are most welcome to join our helping desk i.e discussion forum which will help you to get answers to your questions. Simply sit at home and post the question without going to any teacher for clarifying your doubt. Visit our website : www.educad.co.in then click on discussion forum, register your name then post your question and you will get your answers.

Thanking you!!!!!!
